Dear Arnie,

I wanted to take this opportunity to send our warmest gratitude for assisting us with our fire loss insurance claim.

We really can't thank you, Martin (Altman) and Susy (Kim) enough for your amazing work and genuine concern for our case. You are such wonderful people who really CARE about their clients. It is so refreshing and not at all common in the professional world.

You were there for us for every single question we had. You were there for us for every concern we expressed. You never hesitated to keep our best interest at heart and we can't thank you enough.
In the end, what we realized most from this situation is that an average person, who has insurance, is not versed enough to explain and express the devastation and loss that happens during an emergency like this. Thank goodness there is a company like The Greenspan Co./Adjusters International that helps small businesses get a fair settlement and gets them quickly back on their feet. This is what you have done for us and I am certain you will continue to help others do the same.

With our warmest gratitude,

Julie Kim
