To Whom It May Concern:

In May of this year, we experienced a fire in our rental property here in San Leandro. Needless to say, we were unsure where to start to recoup our losses.

Mr. William Greenspan approached us the next day and we were very skeptical when he said he would ensure that we received the most from our insurance carrier. We decided to go ahead and have the Greenspan Company represent us.

We were very pleased with the professional way in which our claim was handled. With very little effort on our part, the Greenspan Co. settled our claim and we resulted in an extremely fair adjustment from our insurance company.

Our sincere thanks for a most enjoyable working relationship.

Sincerely,
